

COACHING NEWSLETTER WINTER 2011

Welcome to the VICTEN coaching newsletter. The VICTEN coaching program is designed to inspire you to play tennis—that means taking lessons, competing, practicing and aspiring to make your school team, win your age group at the club champs or be the next Rafa or Stosur. By using the latest coaching principles and equipment scaled to suit to student, we aim to build great foundations and promote tennis as a great family game that can be played for life.

COACHING PROGRAM

While taking 1 lesson per week is a great start—the VICTEN program encourages students to commit to improving by playing 2 or more times each week. This why as part of your coaching package you receive:-

- Free voucher for Saturday competition
- Free voucher for holiday clinics
- Free court hire for more practice time

By taking advantage of these opportunities you can move through the eight levels of the VICTEN program and achieve the confidence to reach an elite level of tennis.

1/2 PRICE 2ND LESSON

During term 3 students will have access to a 50% discount if they take a second group lesson during the week. This is a saving of up to \$125.

This is a great opportunity to get that extra practice and get your game into gear before the tennis season arrives in term 4.

RACQUETS

One piece of equipment you must get right is your racquet. The right weight, the right length, the right amount of power. Right now the VICTEN pro shop is having a 40% discount on all racquets in stock. This sale in its last days before the new range arrives in August.
